## PERSONAL STATEMENT

I am a highly motivated and analytical Software Engineer with 5 years of experience, having grown from a graduate to the lead frontend engineer at a wholesale energy trading company. I've delivered 4 critical new use cases and revitalized over a dozen existing ones through bug fixes and feature requests. My expertise spans the full SDLC, encompassing architecture, planning, design, implementation, and release of software across our application portfolio. I leverage strong leadership skills to guide a team that delivers through an Agile methodology, managing ceremonies and effectively engaging stakeholders.

## KEY SKILLS

Agile Development • Code Reviews • Unit Testing

Software Maintenance • Group Presentations  
Stakeholder Management

JavaScript ES6 • Typescript • HTML5 • CSS3 •  
Vue.js React • Git • Express • NodeJS • Nginx •
